

this conference will highlight
information-geometric structures
for the foundations of data science

Scientific Committee

Nihat Ay (Hamburg University of Technology, Germany)
 Shinto Eguchi (The Institute of Statistical Mathematics, Japan)
 Hiroshi Matsuzoe (Nagoya Institute of Technology, Japan)
 Noboru Murata (Waseda University, Japan)
 Frank Nielsen (Sony CSL, Japan)
 Jun Zhang (University of Michigan, USA)

Invited Speakers

Kenji Fukumizu (The Institute of Statistical Mathematics, Tokyo, Japan)
 Hideitsu Hino (The Institute of Statistical Mathematics, Tokyo, Japan)
 Dominik Janzing (Amazon Research, Tübingen, Germany)
 Emtiyaz Khan (RIKEN Center for Advanced Intelligence Project, Japan)
 Wuchen Li (University of South Carolina, USA)
 Guido Montúfar (MPI for Mathematics in the Sciences, Germany & UCLA, USA)
 Klaus-Robert Müller (TU Berlin, Germany)
 Masafumi Oizumi (The University of Tokyo, Japan)
 Gabriel Peyré (CNRS & École normale supérieure, France)
 Minh Ha Quang (RIKEN Center for Advanced Intelligence Project, Japan)
 Sho Sonoda (RIKEN Center for Advanced Intelligence Project, Japan)
 Leonard Wong (University of Toronto, Canada)

IG4DS

International Conference on
**Information Geometry
 for Data Science**

19th to 23rd September 2022
 at Hamburg

YOU ARE INVITED TO
 SHARE YOUR THOUGHTS

Tutorials
 by scientific
 committee members

Register at www.dsf.tuhh.de

Hamburg University of Technology // Audimax II
 Denickestrasse 22, 21073 Hamburg, Germany
